SUMMARY

I'm a passionate and versatile full-stack developer with expertise in both frontend (UI) and backend (server-side) development. Skilled in working with modern technologies such as HTML, CSS, JavaScript, TypeScript, React, Next.js, and Node.js. Adept at building scalable, high-performance web applications, and optimizing for SEO and user experience. I'm committed to staying updated with the latest web development trends and technologies to deliver engaging and user-friendly solutions.

EXPERIENCE

Full-stack Developer

Freelance

April 2024 - December 2024, Remote

- Developed and maintained full-stack web applications for clients across diverse industries, ensuring high-quality and scalable solutions.
- Collaborated with designers to transform wireframes into fully responsive and user-friendly web interfaces.
- Integrated RESTful and GraphQL APIs to support dynamic and feature-rich web applications.
- Coordinated with project teams to define project scope, determine database structures, and resolve technical limitations.
- Optimized web application performance, focusing on fast load times and seamless user experience across devices.

Frontend Developer (Intern)

Hng Tech

April 2023 - August 2024, Lagos

- Collaborated with design teams to translate UI/UX wireframes and mockups into fully functional web applications.
- Developed responsive, user-centric web interfaces utilizing HTML, CSS, and JavaScript.
- Implemented frontend functionality with modern frameworks, including React.js, React Native, and Angular.
- Optimized web applications for performance, speed, and scalability across various devices.
- Ensured seamless cross-browser and cross-device compatibility to enhance user experience.
- Partnered with cross-functional teams (designers, backend developers, and project managers) to define project requirements and deliver tailored solutions.
- Stayed updated with industry trends and best practices to continuously improve frontend development techniques.

Frontend Engineer

Ultimate Info Tech Integrated Limited

December 2024 - Present, Remote

- Collaborated with cross functional teams (designers, backend developers, product managers) to deliver client projects on time and within budget
- Integrated third-party APIs and services to meet unique clients needs such as payment gateways, maps, authentication and analytics
- Wrote and maintained unit and integration tests to ensure code quality and functionality.
- Reviewed software documentation to ensure adherence to industry standards and maintain consistency.
- Adapted quickly to different projects scopes and industry showcasing versatility and my ability to learn domain specified requirements

PROJECT
